

I am writing in regards to the LPFM expansion of service. My Family currently listens to K-LOVE on an FM Translator. The power of K-LOVE helps bring our local community together by broadcasting positive and encouraging messages and music. My 2 1/2 yr. old daughter sings to Christian music. What a great influence on kids!!

She will grow up being a better kid for hearing positive messages and not listening to some of the music currently being played. Having K-LOVE in our community is in the public interest. It helps people realize that there is more than bad messages.

Please do not for FM Translators off the air!!!
